"Proudly towering over the idyllic Tuscan rolling countryside and the world-famous town of Volterra, this sleek-design contemporary villa enjoys an amazing situation, elegant interiors and state-of-the-art facilities including a private pool, jacuzzi and gym for a fully relaxing holiday experience in the iconic Italian region".

This unique property is built in a spectacular, prevailing position that faces one of Tuscany's most precious gems: Volterra, a city renowned for its art, history and alabaster carving. Elegance, luxury and contemporary design, set in an enchanted scenery with a 360-degree view of the Tuscan landscape. The villa is a prime example of the excellence of traditional and innovative Italian architecture and provides its guests with an unforgettable immersive experience. Formed by three main segments, each in tune with the other, the villa represents a blend of refined design elements, where rustic charm is combined with the precision of stark, more minimal and modern lines. A breath-taking area where one can unplug from the daily hustle and bustle and reconnect with nature, the villa's outdoor space is the centrepiece of relaxation offering an outdoor lounge area, a heated infinity pool and a jacuzzi for complete leisure. The villa preserves the historical character of the structure through an innovative approach: the design has been curated with the intention of creating the right balance between rustic and modern, tradition and design. The beating heart of the property is the living area, which is adorned by a panoramic glass wall with a spectacular view of the swimming pool that creates a seamless bridge to the garden. The open plan design of the living spaces allows a direct connection between the dining room and the living room.
